Subject: 1993 Gypsy Moth Trapping Results for Ohio and West Virginia

To: Nathan McKee, Asheville Field Office

In response to your 4 April 1994 telephone request for gypsy moth trapping information for the states of Ohio and West Virginia, I have enclosed photocopies of material from my files. The file original of the West Virginia map is in color so while the copy enclosed is not as definitive, I believe it will still provide useful information. As indicated, the Ohio map lists number of traps placed/number of male moths caught in each county. Several counties with historically low trap catches were excluded from the trapping program in 1993 as a cost-cutting measure.

I trust your trapping cooperators in Kentucky will find this information helpful. Our cooperator in West Virginia would like to know who his counterpart in Kentucky is. A reply to me on the DG will suffice.
